

## General Education Team

### Purpose:

The General Education Team coordinates the assessment of all general education and related instruction courses, updates general education and related instruction catalog pages, reviews proposals for additions / deletions to the general education / related instruction course lists, and makes recommendations to Curriculum Committee on general education decisions.

### Responsibilities:

- Reviews the general education / related instruction outcome statements and components of each outcome
- Holds meetings with all general education faculty at inservices and other times, as appropriate
- Works with general education faculty to incorporate common student learning outcomes and assessment measures
- Compiles, reviews, and summarizes general education assessment results
- Shares results of assessment cycles with faculty and gathers suggestions for improvement
- Reviews the general education / related instruction curricula and provides guidance to Curriculum Committee on changes affecting them, including course additions / deletions and graduation requirement substitutions for general education / related instruction courses
