Windows 8

Click on the opening screen or press the “Enter” key to bring up the login screen.
Login Step 1

Click on the “Other User” option tile.
Login Step 2

Enter your username and password.
The Desktop

Click on the "Desktop" tile to go to the Windows Desktop platform for most of the Windows based programs and applications that you will probably use.
The Desktop

*Fairly Familiar Stuff*

Note: There is no “Start” button.

Pull your cursor to the lower left corner and click on the “Metro” tile to return to the Start window.

Or

Pull your cursor to the upper or lower right-hand corners of the screen for more options via the “Charms” menu.
**Apps Step 1**

Right click in the lower portion of the metro screen, and left click on the “All Apps” icon to see “All Apps” (similar to “All Programs”).
Apps Step 2

Click on the App that you wish to run.
Charms

Pull the cursor to the upper or lower right-hand corners of the screen for more options via the “Charms” menu.
**Charms**

**“Search”**

Click on the “Search” option in the “Charms” menu, and begin typing the name of the App you want to run.
Charms

“Shut down”

Click on the “Settings” option in the “Charms” menu, left click on the “Power” icon and click the “Shut down” menu option.
Sign Out

Right click on the “User” icon in the “Start/Metro” window, and click on the “Sign out” menu option.
